

Silver Knight Wall

A new tool is now available to help protection against the worldwide epidemic...

BREAKING NEWS • BREAKING NEWS • BREAKING NEWS • BREAKING NEWS

We would like to introduce the Silver Knight Wall, a new member of Graboplast's world-patented **Silver Knight** product group, which thanks to its special surface treatment eliminates microorganisms, like viruses and bacteria without the use of chemicals.

The disinfecting activity of the new wall covering is achieved by a double defense line: the first line is a natural antibiotic known for hundreds of years, the silver ion, and the second line, which is a light-activated protective layer, helps to transform harmful substances into harmless compounds.

THICKNESS:

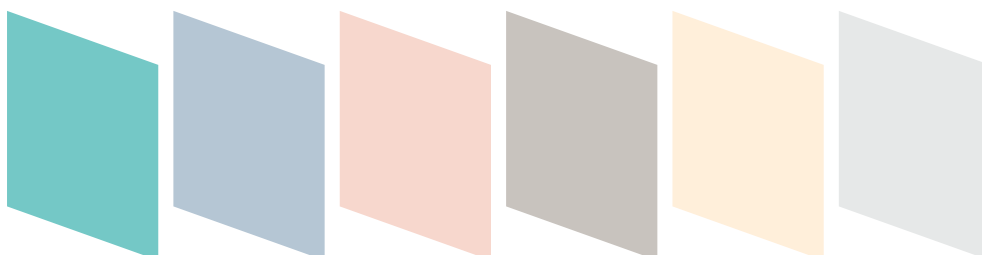

1,5 mm

WEIGHT:

1,5 kg/m²

WIDTH:

1,5 m
